PROFESSIONAL SUMMARY	
Google Cloud GenAI Applications Engineer with 4+ years of enterprise software experience at Deloitte, followed by strategic career transition into GenAI. Academic excellence demonstrated through Rank 1 performance (4.09/5 GPA) in Post Graduate AI/ML program. Expert in multi-stage AI pipeline architecture, advanced prompt engineering, and enterprise-grade MLOps implementation. Proven ability to build sophisticated AI platforms spanning blockchain analytics, creative AI, and multilingual processing with real-time capabilities, hybrid architectures, and production scalability. Google Cloud Gen AI Academy certified with comprehensive expertise in Vertex AI orchestration, advanced NLP, and modern AI development workflows using Claude and Gemini.	
TECHNICAL SKILLS	
GenAI & LLM	Google Cloud GenAI (Vertex AI, Gemini APIs, Imagen, Multimodal RAG), LangChain, Hugging Face, Advanced Prompt Engineering, LLM-based Optimization
Multi-Agent AI	OpenServ SDK, Multi-Agent Orchestration, Real-time AI Processing, Cognitive Frameworks, Continuous Learning Systems
Advanced NLP & ML	Semantic Analysis, Poetic Understanding, Multilingual Processing (140+ languages), Sentiment Analysis, Theme Extraction, Pattern Detection
Blockchain & Web3	Web3 APIs, Multi-Chain Analysis (Ethereum, Polygon, BNB), Alchemy SDK, Moralis SDK, Real-time Transaction Monitoring
AI/ML Frameworks	TensorFlow, PyTorch, scikit-learn, Keras, OpenCV, Confidence Scoring, Computer Vision, Image Quality Assessment
Cloud Architecture	Google Cloud Platform (Cloud Run, Cloud SQL + pgvector, Firestore, Secret Manager), Vertex AI MLOps, Webhook Architecture, Cost Optimization
Programming & Tools	Python, SQL, JavaScript, TypeScript, Claude (coding), Gemini (research), Git, Docker, Hybrid API Integration
RECENT GENAI PROJECTS	
1. Smart Money Tracker - Multi-Agent Blockchain AI Analytics Platform	
Multi-agent AI orchestration using OpenServ SDK with real-time whale tracking across Ethereum, Polygon, and BNB Smart Chain Advanced pattern detection system identifying accumulation, distribution, token focus, and coordinated movements with confidence scoring Real-time alert architecture using Alchemy Webhooks and Google Cloud Run for sub-second transaction monitoring and intelligent filtering Dynamic whale identification with automated exchange wallet exclusion using Moralis Address Labeling API and \$1M+ USD threshold Comprehensive Google Cloud architecture integrating Cloud SQL (PostgreSQL + pgvector), Firestore, Secret Manager, and Gemini AI analysis On-demand execution model with cost-optimized triggering, processing 100M+ Alchemy CUs and 40K+ Moralis CUs within free tiers Business Impact: Enables early detection of whale movements with 40% improvement in market trend prediction accuracy	
2. VerseCanvas - AI-Powered Poetic Visualizer Platform	
Comprehensive AI solution architecture with multi-stage pipeline: semantic analysis (Gemini/Gemma) → prompt engineering → image synthesis (Imagen) → hybrid editing Advanced poetic understanding system extracting themes, emotions, visual elements, and narrative arcs beyond literal interpretation using PoeKey algorithm concepts Enterprise-grade MLOps implementation on Vertex AI with model deployment, monitoring, versioning, and managed endpoints for production scalability Hybrid image editing architecture combining Imagen's generative capabilities with Cloudinary/Imgix APIs for comprehensive traditional and AI-powered editing Multilingual poetic analysis support and sophisticated prompt refinement system

PROFESSIONAL EXPERIENCE

CAREER TRANSITION & UPSKILLING PERIOD

1. Self-Directed GenAI Learning & Development | Sep 2023 - Present

[Career break for family caregiving, utilized for intensive AI upskilling starting Feb 2024]

- **Completed PGP in AI/ML with Rank 1 performance** demonstrating exceptional learning capability during challenging period
- **Architected multiple enterprise-grade AI platforms** including multi-agent blockchain analytics and sophisticated poetic visualization systems
- **Mastered comprehensive Google Cloud AI ecosystem** with advanced MLOps, multi-modal integration, and production deployment strategies
- **Built award-winning AI systems** combining real-time processing, advanced NLP, generative AI, and hybrid editing architectures with cost optimization
- **Achieved Google Cloud Gen AI Academy certification** with comprehensive GenAI knowledge and modern development workflows

INTERNSHIP STUDIO, Remote

Machine Learning Intern | Jul 2024 – Aug 2024

- **Developed AI-powered prediction system** for YouTube advertisement performance
 - **Implemented automated ML pipeline** processing 15,000+ videos with advanced analytics
- Business Impact:** Improved ad revenue optimization by 25% through data-driven insights

DELOITTE CONSULTING LLP, Bangalore

QA Automation Engineer (Analyst) | Aug 2019 - Jan 2023

- **Led 6-member technical team** developing automated testing frameworks and enterprise data processing solutions for Fortune 500 clients
 - **Built enterprise-scale automation pipelines** processing 50,000+ daily transactions with real-time monitoring and intelligent analytics
 - **Architected comprehensive testing solutions** for AT&T Consumer Connect, Hewlett Packard Enterprise, and The Dental Supply Company systems
 - **Created interactive Tableau dashboards** for real-time monitoring across 343 business components with advanced data visualization
- Business Impact:** Improved system reliability by 83% through intelligent quality assurance processes

EDUCATION

Post Graduate Program in Artificial Intelligence and Machine Learning (Feb 2024 – Feb 2025)

Texas McCombs School of Business & Great Lakes Institute of Management by Great Learning

- GPA 4.09/5 | Rank 1 in Batch

Bachelor of Technology in Information Technology (2015-2019)

Kalinga Institute of Industrial Technology University, Bhubaneswar

- CGPA 7.17/10

CERTIFICATIONS & ACHIEVEMENTS

- **Google Cloud Gen AI Academy Completion Certificate** - Google Cloud & Hack2skill (2025)
Certificate ID: 2025H2S04GENAI-A01917
- **Hackathon Double Winner** - OpenServ & Hack2skill Competition (2024)
Best DeFi Application (Winner) | Best Website Application (Runner-up) for Smart Money Tracker
- **Post Graduate Program in AI/ML** - Great Lakes & Texas McCombs (2025) - **Rank 1 in Batch**
- **CPSAT - Certified Professional Selenium Automation Testing** (2022)
- **2 Spot Awards at Deloitte + Applause Award** for HPE project excellence
- Successfully completed Benjamin Bennett Alexander's book '50 Days of Python: A Challenge a Day'.
